Most Christians living in a secular society have unwittingly relegated God and all things spiritual to the "second storey" of the universe: a realm we cannot reach except through death. The effect of this is to banish God, along with the saints and angels, from our everyday lives. Fr. Stephen Freeman makes a compelling case for becoming aware of God's living and active presence in every moment of our lives here and now. Learning to practice your Christian faith in a one-storey universe will change your life--and make possible the living, intimate relationship with God you've always dreamed of.
